

Mini-symposium

Hot Topics and Advances in Plant Cell Biology

in honour of Viktor Žárský on the occasion of his 65th birthday

B1 Library, Institute of Experimental Botany, Prague
Streaming link: <https://cesnet.zoom.us/j/91563666511>

Wednesday, May 03, 2023

09:30 to 09:50	<i>Meeting friends, wake-up discussions, coffee, refreshments</i>
09:50 to 10:00	Martin Potocký (IEB, Prague, Czechia) – Welcome address
10:00 to 10:40	Jenny Russinova (Plant Systems Biology, VIB, Ghent, Belgium) “Cell type-specific regulation of brassinosteroid signaling in stomatal lineage”
10:40 to 11:20	Shaul Yalovsky (Tel Aviv University, Tel Aviv, Israel) “ABA -ROP toggle switch regulated patterning”
11:20 to 12:00	Ivan Kulich (Institute of Science and Technology, Klosterneuburg, Austria) “Slow down or burst - growth regulation of the plant cells”
12:00 to 12:40	Sébastien Mongrand (CNRS, Bordeaux University, Bordeaux, France) “Role of plasma membrane signalling during plant virus propagation”
12:40 to 13:40	<i>Lunch break</i>
13:40 to 14:20	Fatima Cvrčková (Charles University, Prague, Czechia) “An ‘evo-devo’ view of cell morphogenesis”
14:20 to 15:00	Daniël Van Damme (Plant Systems Biology, VIB, Ghent, Belgium) “Mechanistic insight into plant endocytosis”
15:00 to 15:40	Yasin Dagdas (Gregor Mendel Institute, Vienna, Austria) “Leveraging evolutionary diversity to discover new selective autophagy pathways in plants and humans”
15:40 to 16:00	<i>Coffee break</i>
16:00 to 16:40	Claus Schwechheimer (Technical University of Munich, Freising, Germany) “The ABC of polarity regulation of AGC kinases in tropic growth control”
16:40 to 17:20	František Baluška (Bonn University, Bonn, Germany) “Concept of sentient eukaryotic cell”
17:20 to 17:30	Viktor Žárský (IEB and Charles University, Prague, Czechia) – Closing remarks
17:30 to 18:15	<i>Wrap-up discussion with refreshment at the terrace</i>
18:15 to 19:00	<i>Transport to the city center</i>
19:00 till late	<i>Dinner</i>
